

Roof & Gutter Sealant 295ml Cartridge **Technical Data Sheet**

Description

Bartoline Roof & Gutter Sealant has been specially developed for repairing leaks in gutters, down pipes, and flashing. It will provide a permanent water resistant and weatherproof seal.

Applications

- Fills and seals gaps/cracks in most roofing applications.
- Bonds to: concrete, roofing felt, lead, zinc, steel and masonry.
- For bedding tiles, slates and flashing into position.
- Joint sealing on gutters and down pipes.
- Sticking down loose roofing felt.
- Joint sealing between corrugated iron sheeting.

Directions

Surfaces must be sound, clean, dry and free dust/grease. Carefully cut off the tip of the cartridge and screw on the nozzle. Trim the nozzle to the required size. Using a cartridge gun, apply the sealant into the gap or joint ensuring a good solid fill. If required smooth down using a spatula or stick slightly wetted with soapy water. After application, excess sealant can be removed with a cloth dipped in Bartoline White Spirit or trimmed with a knife when dry.

Health and Safety

See MSDS for full information.

Technical Data

| | |
|--------------------------------|---|
| Form | Ready to use thixotropic paste, black in colour |
| Specific Gravity | 1.84 |
| Flashpoint | Above 61°C |
| Skin Formation Time | Up to 7 days depending on ambient temperature and conditions. |
| Application Temp. Range | +2°C to +40°C |
| Service Temp. Range | -15°C to +75°C |
| Movement Accommodation | Low |
| Compatibility | Can be used in contact with most building materials |
| Limitations | Slight crazing of the surface may occur on the exposed surface in direct sunlight, the bulk of the sealant will remain pliable. Do not use in constant water immersion situations |
