

BBQ Cleaner - Spray **Technical Data Sheet**

Description

Bartoline BBQ Cleaner is designed to remove cooked-on grease, fat and carbon from barbecues. Its easy-use formula is non-hazardous and suitable for all grill types.

Directions

Always allow the barbecue to cool down before cleaning. Turn nozzle to “on” position and spray Bartoline BBQ Grill Cleaner liberally onto the surface to be cleaned. Leave the cleaner for 5-10 minutes. Agitate and rub the surface with a stiff brush or scouring pad. Rinse thoroughly with clean, warm water. For heavier baked on carbon repeat the process.

Precautions

Do not allow the product to come into contact with plants, shrubs or grass. Protect painted surfaces; if the product goes on the outside of the barbecue clean and rinse immediately with plenty of clean water.

Health and Safety

See MSDS for full information.

Technical Data

Measurement	Value	Test Method
Physical State	Liquid	Visual
Colour	Pink	Visual
Odour	Slight detergent	
Flash point	Not applicable. Water Based	
VOC content	None	
Density	0.955 – 1.055 @15	
pH	10 – 11.5
