About Us

Bartoline Limited, first established in 1876, is Europe's leading manufacturer of decorating sundries for the home improvement industry. Products include White Spirit and paint solvents, fillers, adhesives, sealants, sugar soaps, paint strippers, garden wood protectors, paraffin, BBQ lighting fluid and lantern oils, etc.

Bartoline acquired Modus Products, a wallcovering adhesive and filler manufacturer, in 1999 which enabled significant expansion into a wider array of decorating sundries supporting significant growth. This growth was furthered with a major investment in a £5m liquid manufacturing plant resulting in the safest and most modern factory in Europe for packing solvents and associated products.

New premises were also acquired providing additional capacity underpinning further expansion resulting in a five-fold increase in sales within the UK. The increase in capacity has also allowed expansion for exports which are developing at an even faster rate.

Products are manufactured and distributed extensively through retail, wholesale and trade outlets, throughout the United Kingdom and an ever-expanding number of countries overseas.

Bartoline achieves EcoVadis sustainability performance rating

#SAVETHEBRUSH

“New products are always being developed in-house.”

Customer's private label requirements represent a significant part of the company's business, with most of the UK's leading multiple DIY retailers being supplied, as well as supermarkets, trade outlets, wholesalers, etc. A service is provided which can include everything from the original design concept to finished product. Toll manufacturing is also a growing specialty with many blue-chip companies taking advantage of the UK manufacturing base and superior facilities on offer. New products are always being developed in-house. New, improved Clean Spirit, a lower environmental impact and safer alternative to White Spirit and other traditional paint solvents was launched in 2022, along with Paint Predator paint and varnish stripper and the 1876 professional range of adhesive, fillers and sealants targeting the trade customer.

Bartoline continuously strives to meet the exacting standards demanded by the industry and the customers it supplies. Bartoline has ISO 9001, 14001 and 45001 certifications and in 2022 achieved a Bronze EcoVadis Sustainability rating following the business' first external assessment, this places the company in the top 33 per cent globally for sustainability commitment and performance.

EcoVadis is a global provider of business sustainability assessments and its ratings are based on international standards, such as the Ten Principles of the UN Global Compact, the International Labour Organization conventions, the Global Reporting Initiative standards and the ISO 26000 standard.

The EcoVadis assessment evaluated Bartoline on 21 sustainability criteria across four core themes: environment, labour & human rights, ethics and sustainable procurement. The Bronze Sustainability

rating is classed as being 'Good' and confirms that Bartoline has 'a structured and proactive sustainability approach.'

The integration of best environmental, social and governance practice is central to Bartoline's transformational growth strategy.

Moving forward, Bartoline plans to improve its sustainability performance by implementing a system based around the ISO 26000 Social Responsibility Standard. The company has set ambitious targets to achieve EcoVadis Gold and have a clear roadmap in place.

Bartoline's commitment goes beyond regulatory compliance, cutting right across the business to manage its economic, social and environmental impact involving key stakeholders, suppliers and customers.

Welcome To 1876 The Professional Range

High-quality adhesives, fillers and decorating sundries formulated for the professional user. Leading hybrid polymer technology cartridge sealants and adhesives and professional grade PVA Building Adhesive and Plaster Skim Repair, providing trusted results you can rely on.

Fillers

POWDER AND READY MIXED FILLERS

2.5ltr

Flexible Decorators Caulk

A high-performance decorator's caulk based on leading developments in acrylic elastomer technology.

- Paintable
- Crack resistant
- Interior & exterior

AVAILABLE PACK SIZES

310ml - White

380ml - White

Multi-Surface Sealant & Adhesive

Excellent adhesion to glass, timber, metals, brickwork, concrete, composite panels and most plastics* including PVCu. (* Not suitable for PP, PE or PTFE plastics.)

- Suitable for PVCu, metal, timber, brickwork & blockwork
- Permanently flexible
- Excellent adhesion

AVAILABLE PACK SIZES

290ml - White

290ml - Black

290ml - Clear

High Strength Grab Adhesive

Suitable for bonding a wide range of substrates including wood, glass, concrete, mortar, composite panels and unprimed metals.

- Excellent grab & green strength
- Solvent & isocyanate free
- Fast cure

AVAILABLE PACK SIZES

290ml - White

High Performance Frame Sealant

Ideal for sealing between dissimilar materials such as uPVC, aluminium, composite and timber frames into brick, masonry and plaster walls.

- Excellent adhesion & flexibility
- Paintable
- UV stable

AVAILABLE PACK SIZES

310ml - White

310ml - Brown

310ml - Anthracite

Silicone Sanitary Sealant

Premium quality neutral cure silicone sealant containing a highly-effective fungicide providing long-lasting mould resistance.

- Low odour neutral cure
- Excellent adhesion & flexibility
- Mould resistant

AVAILABLE PACK SIZES

310ml - White

310ml - Translucent

Low Modulus Neutral Silicone Sealant

A one part, neutral cure, silicone sealant with excellent adhesion and superior flexibility, ideal for perimeter frame sealing.

- Low modulus neutral cure
- Excellent adhesion & flexibility
- Meets EN15651 Parts 1 & 2

AVAILABLE PACK SIZES

310ml - White

Solvents

An extensive range of paint solvent products for use by both the professional decorator and home owner

White Spirit

Bartoline White Spirit is a top-quality solvent refined to meet the strict requirements of BS245. It is recommended for paint thinning as it will not affect the drying time of the majority of oil-based paints. Also suitable for cleaning paint brushes and for general DIY cleaning purposes. White Spirit is the most popular and widely used of all paint solvents.

Application: Cleaning paint brushes, paint spills and thinning solvent/oil-based paints.

Premium Low Odour White Spirit

Bartoline Low Odour White Spirit is a top-quality low odour solvent refined to meet the requirements of BS245 Type A. It is suitable for all similar applications as standard White Spirit, but has a milder odour, proving more suitable for use indoors.

Application: Cleans brushes and paint tools. Suitable for paint spills as well as thinning solvent/oil-based paints.

Methylated Spirit

Bartoline Methylated Spirit is traditionally used as a fuel for alcohol burners, fondues and camping stoves. This product is completely denatured alcohol and should not be confused with industrial denatured alcohol or trade specific denatured alcohol in accordance with The Denatured Alcohol Regulations 2013. It contains only virgin raw materials and is not manufactured from inferior recovered or reclaimed materials.

Application: Fuel for alcohol burners and camping stoves and also a smear-free hard surface cleaner. May also be used as a stain remover for sticker adhesives and marker pen ink.

Adhesives

A diverse range of high-performance adhesives to ensure decorating is completed to the highest standards

All Purpose Wallpaper Adhesive

Bartoline All Purpose Wallpaper Adhesive is a traditional high-quality starch-based flake. Easy to mix, and ready to use in under 4 minutes, it spreads easily and has excellent slip properties for accurate positioning with long-lasting results.

Application: Hanging all wallpaper types including woodchip, washables, vinyls and heavy embossed papers. Also suitable for applying polystyrene tiles, and for use as a size for sealing newly plastered walls prior to papering. Available in handy counter display boxes, as well as standard cartons.

Easipaste® Ready Mixed Wallcovering Adhesive

Bartoline Easipaste® provides high initial tack with good slip properties and powerful final adhesion. Recommended for use with most wallpaper brands. No mixing or dilution is required.

Application: Suitable for all types of wallcoverings including vinyl, blown vinyl, heavy embossed, non-woven, washables and 'paste the wall' wallcoverings.

Coverage: 1Kg of Easipaste® is sufficient to hang approximately one 10 metre roll of standard wallcovering, or half a roll of embossed or heavy embossed wallcovering.

PVA Adhesive & Sealer

Bartoline PVA Adhesive & Sealer is a Multi Purpose product which can be used in a variety of applications. Can be used as a primer to seal porous substrates; as an effective adhesive to bond materials together; or as a dust-proofer for mortar surfaces such as concrete and plaster. Especially suitable as an additive for cement to increase adhesion properties.

Application: Will bond most materials including wood, brick, ceramic tiles, carpet, cardboard, polystyrene, fabric, leather and other similar porous substrates. Can be used to seal old concrete, plaster and plasterboard in preparation for tiling or further coating.

Fast Drying Wood Glue

Bartoline Ready-To-Use Fast Drying Wood Glue is a high-performance water-resistant adhesive that provides a rapid bond. The glue dries clear, exhibits excellent resistance to 'creep', and can be used in areas of high humidity, or where short-term water contact occurs such as kitchens and bathrooms. Supplied in bottles incorporating handy application spouts means minimal clean up required.

Application: Suitable for all types of wood, including MDF and chipboard and meets the requirements of Category D3 of EN 204 and BS 14256 Sustained Load Requirements.

Fix & Grout Tile Adhesive

Bartoline Fix & Grout is a high-quality waterproof wall tile adhesive which dries super white. Can be used in areas of high humidity such as kitchens, bathrooms, showers and is also ideal for fixing loose and broken tiles to wood, and most other surfaces subject to small movement. Perfect for grouting and meets the European harmonised requirements of EN12004-1:2017. (Adhesives for tiles. Requirements, evaluation of conformity, classification and designation). Available in tubs and a handy squeeze tube for those smaller jobs around the house.

Application: For fixing tiles to most substrates and ideal for grouting.

Fillers

A complete range of filler products to repair most cracks and holes

Multi Purpose Powder Filler

Bartoline Multi Purpose Powder Filler is an easy to mix and simple to use traditional filler ideal for preparing surfaces by filling cracks and holes in walls, ceilings, around door frames and skirting boards. It has excellent adhesive properties to keep the filler firmly in position and sets hard enough to take nails or screws. It also provides a smooth white surface for overpainting or wallpapering, which does not shrink, and may be sanded when dry. Suitable for exterior use providing it is sealed with an oil-based paint or varnish.

Application: Repairs to plaster, plasterboard, wood, brick, stone and most other building materials.

Ready to Use All Purpose Filler

Bartoline Ready to Use All Purpose Filler is suitable for both interior and exterior applications. Simple to use and dries white. May be sanded when dry, although often unnecessary as the product is extremely smooth. Must be sealed with an oil-based paint or varnish when being used outdoors.

Application: Ideal for interior and exterior repairs to all types of plaster, plasterboard, brick, stone and timber. Not to be used on surfaces regularly under water.

Instant Filler

Bartoline Ready To Use Instant Filler is specially formulated for speedy smaller jobs around the home. Incorporating quick drying properties, it enables repairs to be carried out fast and efficiently. Dries white and smooth and may be sanded to a finish suitable for overpainting or wallpapering. May also be used externally, provided the repair is sealed when dry with a suitable oil-based paint or varnish. Packed in handy squeeze tubes thereby allowing direct application where it's needed.

Application: Repairs to plaster, plasterboard, brick, wood, stone, etc. In larger areas, apply filler in layers of no more than 6mm thick.

Ready Mixed Fine Surface Filler

Bartoline Fine Surface Filler is a ready to use super smooth filler paste, which is perfect for repairs to small holes, dents and nicks and a wide range of imperfect interior surfaces. It has good adhesion and gives a strong repair in all applications. Contains fine particles enabling a beautifully smooth white finish ready for overpainting. Can also be used outdoors, providing the repair is sealed with a suitable oil-based paint or varnish when dry.

Application: Ideal for repairs to brickwork, stone, plaster, wood and other materials. Especially suitable for smaller cracks, although it may be used for larger holes as well. If a deeper repair is required, build up the filler in thin layers, or use Bartoline Ready to Use All Purpose Filler, followed by the Fine Surface Filler. For a perfect finish fill slightly proud of the surrounding surface and use fine abrasive to blend in the repair.

Lightweight Filler

Bartoline Lightweight Filler is an easy to apply high-tech ready-to-use lightweight filler suitable for a multitude of tasks around the home and workplace. Utilising ultra-modern glass bead technology, it outperforms most other conventional fillers. When filling large cracks and gaps there is no need to build layers, as no sagging or shrinkage will be evident, even on ceilings. Dries brilliant white with a perfectly smooth finish requiring no sanding. Product may be overpainted in approximately 30 minutes.

Application: Suitable for interior or exterior use on all surfaces except plastics and metals. Not suitable for fixing structural bolts. May be overpainted with latex paint 15 minutes after application.

Flexible Filler

Bartoline Flexible Filler is a flexible acrylic filler for sealing interior gaps and cracks. An easy to apply and quick drying filler supplied in a handy-size tube ideal for small jobs and the DIY consumer. Bartoline Flexible Filler adheres to most surfaces and remains permanently flexible. Flexible Filler may be used prior to painting or papering to prevent unsightly cracks developing at a later stage. Can be overpainted with emulsion paint after approximately 1-2 hours following application.

Application: Sealing interior gaps or cracks where movement can occur such as between plasterwork, window frames, doorframes, skirting boards, fitted furniture and architraves. Not suitable for use on bituminous asphalt substrates or in areas with continuous exposure to water.

Wood Filler

Bartoline Ready Mixed Wood Filler has been formulated for all types of repairs to both interior and exterior wood. The acrylic formulation gives great adhesion with a small amount of flexibility when set, and can be stained, varnished or painted as required. Available in tubs and handy squeeze tubes, in both white and brown shades, allowing direct application to the repair site.

Application: Window frames, doors and skirting boards where an element of flexibility is required. When used externally must be sealed with an oil-based paint or varnish.

Ready Mixed Exterior Filler

Bartoline Ready Mixed Exterior Filler is a ready to use filler with adhesive properties which allow for a wide range of external applications. When set, the filler is hard and durable. Shrink and crack resistant and dries with a white finish. Available in handy squeeze tubes allowing direct application to the repair site.

Application: Suitable for repairing cracks, holes and gaps in exterior rendering, brick, stone, wood and most building materials. For long lasting protection the repair should be sealed with an oil-based paint or varnish. Not for use on surfaces regularly under water.

Patching Plaster

Bartoline Ready Mixed Plaster Skim & Repair is suitable for repairs to plaster and plasterboard prior to decorating. The formulation has excellent wet adhesion making it easy to apply, and will not slump on vertical surfaces, meaning it can be easily smoothed. When the surface is dry it can be painted or wallpapered.

Application: Will cover holes up to 3mm deep. For larger cavities Bartoline Ready to Use All Purpose Filler should be used, followed by Plaster Skim & Repair. Surfaces should be sealed with a plaster sealer or sealer/PVA mix before wallpapering.

Decorating Sundries

A wide range of sundries to help clean and maintain surfaces, brushes, rollers, tools etc.

Clean Spirit™

Bartoline Clean Spirit™ is a highly effective water-based alternative to White Spirit. The high-tech formulation of low VOC components is non-hazardous, virtually odourless, non-flammable and contains all biodegradable ingredients. Clean Spirit can be used to clean all water-based, and most oil-based paints from brushes, rollers and paint pads and contains a conditioning agent, leaving brushes soft and supple. May also be used to clean paint spills from surfaces, flooring and most textiles. Not suitable for thinning oil-based paints.

Application: Can be used to clean all water-based, and most oil-based paints from brushes, rollers and paint pads and contains a conditioning agent, leaving brushes soft and supple. May also be used to clean paint spills from surfaces, flooring and most textiles. Not suitable for thinning oil-based paints.

Traditional Powder Sugar Soap

Bartoline Traditional Powder Sugar Soap is a powerful and effective non-detergent, low suds cleaner. Blended from several different powders, it has been used by professional decorators for many years, for preparing surfaces prior to painting. It cuts through grease and grime, including nicotine stains, and makes repainting easier. May be used both inside and outside.

Application: Preparing surfaces prior to painting and flattening gloss paint to allow repainting without the need for undercoating. Will remove old paint stains from masonry, facing slabs and stonework. Removes moss from flagstones. Also suitable for cleaning garage floors and driveways. Will clean oil and grease from concrete and asphalt surfaces; may be used for cleaning baths, basins and ceramic tiles; and for use as a general household cleaner.

Woodcare

A full range of high-quality timber treatments for the home and garden

Creocote Oil-Based Timber Treatment

Bartoline Creocote is an oil-based wood treatment, effective when applied to exterior timbers. Its oil-based properties provide excellent surface water repellence, improve grain definition and restrict weather damage. Supplied in both traditional light and dark brown shades.

Application: Rough cut exterior timbers such as garden sheds, fences and trellis work.

Coverage: 1 Litre will cover 6 - 8 square meters depending upon texture and porosity of the timber to be treated.

Teak Oil

Bartoline Teak Oil has been specially formulated to replace natural wood oils in hardwoods such as Oak and Teak, giving back the sheen that is lost after long periods of weathering. Contains a solvent carrier to aid penetration, is suitable for use either inside or out, and is easy to apply with a cloth or brush. A handy ready-to-use trigger spray is also available.

Application: Garden furniture and traditional matt finished interior furniture.

Raw Linseed Oil

Bartoline Raw Linseed Oil replaces the natural oils that wood loses over time. It is suitable for all wood types and is very water resistant making it ideal for garden furniture. This popular traditional wood treatment has been used for generations and can be applied both internally and externally on unpolished surfaces. Hardwoods such as Oak and Teak should be treated with Bartoline Teak Oil.

Application: Garden furniture, stone floors, terracotta tiling, wooden sports equipment and musical instruments.

Boiled Linseed Oil

Bartoline Boiled Linseed Oil is suitable for use on soft wood garden furniture. The oil protects wood from drying out after long periods in the sun and gives wood a natural sheen that lasts. Also contains additives to speed up the drying process. Hardwoods such as Oak and Teak should be treated with Bartoline Teak Oil.

Application: Replaces the natural oils in wood.

Home & Garden

Supplementing the extensive range of decorating sundries, we also supply the Home & Garden market

Premium Paraffin

Bartoline Premium Paraffin is a clean burning, low sulphur, high smoke point liquid fuel refined to BS2869 C1 and may be used in all appliances recommended by original heater equipment manufacturers.

Suitable for greenhouse and room heaters requiring a fuel that meets BS2869 C1. Always read the manufacturer's instructions.

Application: Room and greenhouse heaters.

Barbecue Lighting Fluid

Bartoline Barbecue Lighting Fluid is a quick, simple, safe and effective way to ignite traditional charcoal barbecues. Enables charcoal to burn evenly, rather than having 'hot spots' created by solid firelighter type ignition methods, resulting in an even temperature over the coals. The product is non-explosive and will not flash so is also useful as a starter for bonfires.

Application: Ignition of traditional charcoal barbecues and bonfires.

Lamp Oil

Bartoline Lamp Oil is a refined hydrocarbon low odour oil fuel with low smoke properties making it a popular choice for consumers.

Application: For use on modern and traditional oil lamps. Always check the lamp manufacturer's instructions, and ensure the wick is kept trimmed.
